### **LeSaint's high touch service meets the holiday rush for this year's hot tech toy, the Parrot AR.Drone.**

ROMEDEVILLE, Illinois – LeSaint Logistics, a top 3PL provider based outside Chicago, announces enhanced services for Parrot, a global leader in wireless devices for mobile phones. LeSaint has supported Parrot's U.S. logistics needs, from receiving, warehousing, and shipping of products to retailers nationwide. When Parrot launched the AR.Drone, the first quadricopter controlled by an iPod touch®, iPhone® or iPad™, LeSaint was able to provide additional support to meet the high interest in the innovative product.

"It's really been great that we can put our trust in LeSaint," explains, David Gaul, Parrot's CFO. "The AR.Drone has generated a lot of interest from late night and morning news shows, among others, and we had to meet the demand for this innovative product. All told, LeSaint has delivered every step of the way, poised to stay abreast with the high demand."

"What we have provided is a true retail end-to-end solution for Parrot," states Dino Moler, Executive Vice President Client Solutions for LeSaint Logistics. "It has been thrilling to see our solutions meet the needs for Parrot during the exciting product launch of the AR.Drone". Moler continues, "This product launch has utilized every aspect of our services, from port to warehouse, kitting to pick, pack and ship, to our technologies allowing Parrot to monitor the product movement every step of the way."

"LeSaint's TechKnow™ software suite gives clear product visibility 24/7 with real-time access to virtually all warehousing and shipping data," adds Parrot's Christina Ayoub. "This allows us to better communicate with the product flow to our customers."

As a Top 100 3PL provider, LeSaint delivers intelligent warehousing, fulfillment and transportation solutions that provide continuous process improvements to boost the customer's bottom line. With 14 facilities nationwide, LeSaint puts a major focus on retail end-to-end solutions.
