

# LESAIN'T DELIVERS TRANSPORTATION MANAGEMENT WITH PINPOINT ACCURACY.

## **PROVIDING A BROAD BASE OF TRANSPORTATION MANAGEMENT INCLUDING UNIQUE LTL AND SMALL PACKAGE SOLUTIONS.**

Through a wide array of transportation services we're involved in the movement of your products. From encompassing multi-mode, carrier management, freight consolidation and customized dedicated contract carriage, including unique cost savings for your LTL and small package shipping, LeSaint delivers your transportation solutions.

Our transportation management services are backed by our web-enabled transportation management system (TMS) that allows controlled transportation spending with timely, accurate and complete visibility to shipping costs and activities. It's all supported by our enhanced reporting capabilities, providing network intelligence with comprehensive information for making definitive decisions regarding your business.
